### START ONLINE INITIATIVES YOURSELF / PARTICIPATE IN ONLINE INITIATIVES

eParticipation means internet-based procedures that enable the population to participate in political processes. In addition to the legally defined forms of participation, communication between citizens and politicians as well as communication between citizens with each other represent an important participation opportunity. Initiatives, actions, online petitions, and the exchange of opinions on social networks are instruments to actively and passively participate in political events.

This exercise deals with the topic of e-participation/ online initiatives/ online platforms/ online petitions.
